

**ELECTION
MANIFESTO
COMPROMÍS PER
L'ELIANA**

LOCAL ELECTIONS 2015

The representation of the political powers at L'Elia's town council after the elections of May 24 will be voted by citizens who have never seen an alternative system of government to that of the Socialist party.

Besides, **there is a new generation of citizens who demand a change and wish to make their presence felt in the political life**, which makes us seriously reflect on the sense of the proposal contained in this election manifesto.

Compromís is a political project of confluence of people and organisations united by our left-wing political affiliation, socially transformative, which defends environmental sustainability and, at the same time, a belief in the *País Valencià* as a living space endowed with a full entity. These ideas might mean nothing to you.

The deregulation of financial markets and widespread corruption have encouraged the growth of a speculative economy that led us to the worst political, economic and social fraud in decades, along with a huge discrediting of the institutions. **Faced with this reality, what is the value of our proposals?**

Some new voters might not know that the controlled democracy we live in, despite its shortcomings, was not given by the powerful but came about by a long battle to gain freedom, equality, respect and progress for everyone. **Compromís** is well known for continuing these battles and strives to give politics, economy and society back to their real protagonists: the people. Against bank bailouts, we will help people, the people we all make up; we will help our land and our natural resources. And we will do it from reality, from the day-to-day concerns, with no messianic solutions conceived in faraway headquarters.

Compromís is the change because we plead for new ways of governance that place the people in the centre. **Compromís is revolutionary because we support companionship as the driving force to achieve happiness.** Compromís is radical because we tackle the roots of the problems. With Compromís, we will smile again.

For many years, we have fought against lies, in the political institutions, in the street, in the courts of justice. We struggled against the lies of a corrupt political system, of a casino fruitless economy, of a destruction of our territory and our natural resources, of a forced expulsion of the youth from our labour market, of a public service broadcasting that no longer exists, of inefficient audit institutions, of a manipulated identity orchestrated by the shamelessness and the complexes of the manipulators.

Compromís wishes to restore the conviction with which we have always identified: committed, enterprising, responsible, integrating people, and in peace with itself. We will regain our pride as part of the Mediterranean, from which we look ahead and connect with the world. And we will do so by listening to the people, since it is only through active participation that we are the true owners of our lives.

This is the manifesto with which Compromís stands for election in L'Eliaana. This is an open text because we wish to count on your vote but, most especially, we seek to have every confidence in your political will regarding change. And if it is necessary to rectify, we will do so with honesty and our love for the truth.

In this manifesto you will find our proposals to enjoy a full and decent life. We talk about the rights and freedoms of the individuals, about collective and solidarity rights as means of uniting society, about protection and

improvement of the space that surrounds us. We uphold plurality and transversality, since our own experiences are plural, and our daily actions have an effect on all the aspects of reality.

We speak from the experience of our constant labour at the Cortes, the Spanish Congress of Deputies, the European Parliament, provincial councils, and town councils, where we contribute with hope and consistency.

The manifesto is the result of a joint development with the participation of social groups, associations and local people, who contributed proposals on the website Eliaana.participa.net and got involved with their ideas and priorities for our town.

These people have also contributed by bringing their knowhow, their professional experience, their understanding and, most especially, their wish to give you a useful document that could place our territory where it belongs, on the map of those peoples that praise equality and the external projection of the values of democracy and progress.

There is no possibility of magic solutions but in Compromís **we are blessed to have the valuable contributions of industrious and hard-working people** who made this election programme possible.

Most of these people are unknown to you, and will possibly remain the same when Compromís takes over the government of change in the town council of L'Eliaana. However, they are our present. **This is our strength.**

ELECTION MANIFESTO COMPROMÍS PER L'ELIANA 2015

URBAN PLANNING, ENVIRONMENT AND MOBILITY

#L'ElianaSostenible

In Compromís per L'Eliaana we think that urban planning policies must be organised in a different way, with a more adequate administration of the General Urban Planning, with greater citizens' participation in the redesign and definition of the town model we want to have.

URBAN STRATEGIES, SPATIAL, ENVIRONMENTAL AND URBAN PLANNING

- We will deal with the General Urban Planning (PGOU) more efficiently by designing a regulated growth of our town.
- Our streets will be a thriving space for social and economic life, with urban recovery and preservation schemes, removing architectural barriers, planting trees and setting urban furniture wherever possible.
- We will prepare a study on unbuilt plots and poor housing in order to set out an action plan for the promotion of a LOCAL HOUSING SCHEME.
- We will demand the CADASTRAL REVIEW of the property with the aim of adjusting their value more fairly in accordance with the current state of affairs, with the subsequent reduction in taxes.
- We will promote housing REHABILITATION AND CONSERVATION with local economic support.
- We will make more visible the PUBLIC CAR PARKS that already exist near shopping and services areas, improving their access. Besides, we will review parking time allowance in these areas, which must be visible, accessible and allowing enough parking time.
- We will establish a system of affordable rental housing that ensures payments for tenants and benefit the most disadvantaged people.
- We will demand an improvement of the regular bus service that connects L'Eliaana with Valencia and Llíria, along with the establishment of

coalició
compromís
per L'Eliaana

a more efficient bus service that connects all the districts in the Camp de Túria.

- We will demand the **IMPROVEMENT OF THE METRO LINE**, with more connections with the districts, improved scheduling and the rationalisation of fares, with discounts and advantages for young people and long-term unemployed, under-resourced people, who are in need of a better service to look for a job.

- We will complete the basic infrastructures of all the town streets in the next four years.

RESIDENTIAL AREAS

- We will promote active participation and information through regular meetings with the residents' associations.

- We will implement a **SEWAGE MANAGEMENT PLAN** to stop polluting and to have a basic sewerage system, especially in the area of the new cemetery, where lack of sewers makes wastewaters to flow into rainwaters.

- We will foster Urban Planning and Management to provide the more adequate and reasonable solutions to the urban problems in the residential areas.

- We will design a strategic programme and an action plan for the provision of the basic services and conditions for the neighbourhoods on the outskirts. Our aim is to effect a rational, sustainable and economically viable urban development for all homeowners.

- We will explore the execution of appropriate urban works to address the current housing needs in undeveloped land through a scheme to minimise environmental impact, and financed through special taxes (art. 210-212 LOTUP MB).

ENVIRONMENT

- We will revise the convention with the hydroelectric dam in our municipality which continually pollutes totally free of charge. We will claim the payment of adequate local taxes.

- We will claim **WATER AS A FUNDAMENTAL RIGHT** and we will therefore demand the start-up of the denitrification plant without resulting in additional tax burden for our citizens. In case of legal dispute between

the administrations for economic reasons, we will set out the necessary arbitration procedures.

- A proportion of the budget will be channelled to help those families without the necessary resources to install in their homes a double pipeline for the good use of denitrified water.
- We will reclaim the municipalisation of the water services.
- We will reactivate Agenda 21 for the further implementation of sustainable development by carrying out all necessary actions.
- We will promote the Municipal Office for the Environment in order to monitor compliance with sustainability and environmental policies.
- We will favour and promote the use of eco-friendly means of transport like the bicycle, and we will create adequate networks for the use of these means between the residential areas and the town. We will also foster awareness-raising campaigns for our citizens.
- We will implement a programme for car sharing.
- We will develop environment-related educational programmes to raise awareness and stimulate civic involvement.
- We will reduce the levels of air, noise and light pollution.
- We will organise civic education campaigns within the Waste Management Plan in order to reduce waste, reutilise and recycle.
- We will encourage the implementation of biomass for energy production by making use of the mulched tree pruning.
- We will adopt bioclimatic building regulations in all local building works, thus nurturing sustainable architecture.
- We will also develop the electrification of local vehicles and the installation of free charging points.

compromís
per L'Elia

WORKS AND SERVICES

#L'EliaPublicaIDeQualitat

Compromís per L'Elia proposes the progressive recovery of the outsourced services to return to public service management, which provide citizens with better quality for lower costs.

SERVICES

- We will centralise waste collection and cleaning services management through a local public company.
- We will review GARDENING contracts for public management.
- We will support the use of new technologies like ONU (communication and information instrument) between the town hall and the citizens.
- We will the green and sustainable purchase and public contracting in the town hall.
- We will promote the implementation of a Waste Sustainable Processing Plan in the districts (biomass).
- We will explore the replacement of the local public vehicles for electric or biofuel vehicles when their useful life cycle ends.

coalició
compromís
per L'Elia

ECONOMY, PUBLIC FINANCE AND HOME AFFAIRS

#L'EliaReactivadoraEconómica

We want to pursue economic policies centred on the real needs and possibilities of the citizenship that strengthen L'Elia as an emergent city for workers, small and medium-sizes businesses, retailers and professionals. It is necessary that we promote and agree on a 15-year STRATEGIC PLAN on what we want to be as a town and as a society, with an aim to boosting the economy, achieving rational development and obtaining quality life standards for our citizens.

SECURITY, CIVIL PROTECTION AND TRAFFIC

- We will step up the presence and visibility of law enforcement officials in neighbourhoods, residential areas and in the fields. We will promote the body of community police officers and strengthen night services.
- We will also reinforce the local police specially devoted to gender violence and child protection.
- We will update the Civil Protection Plans and will propose that the group of volunteers of L'Elia be increased.
- We will eradicate the drug-trafficking hotspots.

PUBLIC FINANCE

- We will demand the Cadastral Review, as it was last reviewed 5 years ago and property value has decreased in this period. Consequently, the citizens of L'Elia will benefit in certain taxation situations (IRPF, transfers, etc.) without prejudice to the income of the town hall, which will be maintained through an adjustment in the property tax (IBI) rates.
- We will facilitate the payment of general and municipal taxes with tax relief policies.
- We will implement protocols for the rationalisation of spending and we will carry out an improved inspection of the collection of local taxes.

- We will boost economic policies to consolidate L'Elia as an emergent city for workers, small and medium-sized businesses, retailers and professionals.
- We will propel co-operativism as a form of entrepreneurship and a decisive factor in the generation of wealth and welfare.
- We will create a municipal "bank of land" for unemployed people to have the chance of growing and selling their produce in the local markets.
- We will work on participatory budgeting.
- We will demand that in new hires the concession holders to allocate a 1% of the budget for cultural activities.
- We will establish tax mechanisms to give a new impulse to local economy and business activity.
- We will reclaim the maximum possible resources from the Regional and State Administration and we will have responsibility for their implementation.
- We will issue a tax ordinance regulating taxes for occupation of the public thoroughfare in loading and unloading work in local businesses (with an aim to repairing damaged pavement, covering the cost of traffic management and occupation of public thoroughfare).
- We will issue a tax ordinance regulating public fares for the use of municipal land.
- We will issue a tax ordinance regulating the fractioned and deferred payment schemes for bills with regular due dates.
- We will issue a tax ordinance regulating prospections in soils of public use and any removal of pavement flooring in public roads.
- We will issue a tax ordinance regulating the display of advertisements in public thoroughfare.
- We will issue a tax ordinance regulating the realisation of special actions for traffic management.
- We will request the Generalitat Valenciana (Valencia Regional Government) and the Diputación (Provincial Council) to pay their debts for grants and financing agreements.

coalició
compromís
per L'Elia

- We will audit the accounts of the town council, with a special focus on undeclared or mask debts in other budgetary items or periods.
- We will consider the termination of some private contracts and the commitment of the town council to save on the VAT and industrial benefit.

ECONOMIC PROMOTION, EMPLOYMENT, TOURISM AND HERITAGE

AGRICULTURE

“#lEliaVerda”

We must work on progressively recovering the size of the primary sector which L'Elia had had in previous years. The crisis has turned this sector into a refuge from current professions. Besides, it has raised a surge of interest among population in general. For these reasons, we propose:

- The preparation of a Comprehensive Scheme of Protection and Recovery for the old garden as a natural space and a green belt of the town.
- The creation of the Local Agriculture Council as a key body to listen to the voice of the farmer and growers and to respond to their demands.
- The subsidisation of small cooperatives and other agricultural associations by promoting the establishment of associations.
- The issuing of some measures to boost agricultural activity, with traditional and ecological principles, and the exchange of seeds.
- Favouring projects that promote the creation of local markets for direct selling (producer-consumer), thereby encouraging the consumption of the seasonal fresh and natural local produce.
- Fostering the creation of small vegetable gardens for those people who want to grow their own products.

coalició
compromís
per L'Eliaana

EMPLOYMENT, ECONOMIC AND PRODUCTIVE REVITALIZATION

“#lEliaanaActiva”

In the face of this crisis that has hit employment nationwide, we must provide solutions from the local level to be able to contribute to the recovery of jobs and to the promotion of new job opportunities. In Compromís L'Eliaana we propose:

- Boosting the Local Development Agency as the catalyser of new job opportunities and attraction of new business companies in the town.
- Creating a CAMPUS OF PROFESSIONAL SCHOOLS where to centralise activities, workshops and job training centres that help our citizens to access appropriate learning opportunities and find a job.
- Developing a LOCAL ACTION PLAN FOR EMPLOYMENT for young people, women and people over 45.
- Recovering the VOCATIONAL SCHOOL for the formation of our youth in order to find a job.
- Demanding the creation of formative courses on the hotel and catering industry, linked to the reinforcement of tourism.
- Creating a BUSINESS CENTRE AND A BUSINESS INCUBATOR, where new entrepreneurs can set up their business with premises, career counselling and help needed. (We will make an inventory of the available local spaces and will foster the creation of co-working spaces).
- Developing a PLAN FOR THE ATTRACTION OF INVESTORS and of NEW COMPANIES for L'Eliaana that bring resources for the generation of employment in the tertiary and industrial land.
- Creating a temporary SOCIAL LABOUR EXCHANGE for works and services for the recuperation of our territory.
- Creating a SPECIAL JOB CENTRE for people with disabilities, thus ensuring a means for their social integration.
- Enhancing the competitive differences of our COMMERCE OF EXCELLENCE, a distinguishing mark for our town.
- Recovering streets for commerce, revamping their image and making them more convenient and accessible. We will improve signalling and

access to the shopping areas in the car park areas, which will be enlarged and renovated.

- Initiating an information desk to attend and facilitate the procedures to all traders and retailers in order to attract, enhance and preserve our distinguishing mark: THE SMALL LOCAL RETAILERS.
- Establishing a bonus system for accessible, integrating and standardised businesses.
- Creating an ENTREPRENEUR SERVICE POINT (PAE) at the town council to assist in the setting up of new businesses in our town.
- Developing programmes for COMMERCIAL REVITALISATION.
- Fostering the associative movement working together with the local trade association – *Viu L'Elia* – and listening to their demands, helping them in everything possible.
- Stimulating PLANS FOR SOCIAL EMPLOYMENT for the town council.
- Creating a LEISURE CENTRE that generates jobs and provides a ludic alternative in our town.
- Developing plans for subsidies and tax reductions for setting up a business in L'Elia and generating employment.
- Fostering the development of leisure activities for all ages with all respect for neighbours.
- Signing of collaboration agreements with the major companies in L'Elia to aid the training and hiring of local employees.
- Creating a local observatory for employment to improve employability and designing training schemes that meet the needs of our municipality.
- Backing a new production model based on innovation and knowledge. We will ask to be included in the RED IN-PULSO.
- Promoting the creation of business activity, reducing the duration and complexity of administrative processes.
- Developing new ways to fund the creation of businesses in L'Elia, such as grants for the start of the business activity, guarantee funds, and micro-credits schemes with financial institutions.

coalició
compromís
per L'Eliana

- Incorporating new information and communication technologies (ICT) for the entrepreneurs, companies and retailers in L'Eliana, with the aim of presenting their service offer and generating positive synergies among the local businesses.
- Creating the local consumer bureau (OMIC).
- Incentivising the participation of local businesses and freelance workers in the contracts with the town council, thereby reactivating local employment and economy.
- Developing a strategic plan a 15-year STRATEGIC PLAN on what we want to be as a town and as a society, with an aim to boosting the economy, achieving rational development and obtaining quality life standards for our citizens.
- Developing a training scholarship programme for our young graduates who, besides gaining working experience, will actively participate in enhancement projects for the town.
- Fostering the employability and formation of young people with low educational background and in risk of social exclusion.

TOURISM AND HERITAGE

“#lEliaanaAmbArrels”

L'Eliaana is a town that has grown to the detriment of its own cultural heritage. We believe that we need to preserve, restore and revitalize the little that remains, always at the service of our citizens. The Centre for Local Studies of L'Eliaana has carried out most of these recovery efforts, not only as regards infography but also collecting the tools and traditional stories of our elders. We believe that this labour needs to continue, and we want to make it visible and provide space for adequate development.

For this our proposals include

- Support for all the CEL projects in heritage issues.
- Apply for the investment grants in the Provincial Council, under the supervision and management of our deputies, thus enabling the total restoration of the **Molí de la Lluna**, possibly a new wine museum. The priority is to develop good road access to the town.
- Examine the use of the **Torre del Virrei** and its specialised library (this space is closed now closed and Leon Esteban's book collection is being ruined) as a culturally unifying space for our people. We will strive to obtain the support of the University to develop specialised cultural projects in this setting.

coalició
compromís
per L'Elia

CULTURE, EDUCATION, SPORTS AND LINGUISTIC POLICY

CULTURE

“#EliaCultural”

Culture plays a decisive a role in the life of a town, as evinced by the number of cultural associations we have. We strongly believe that we must secure them and guarantee the continuation of their valuable task for the town.

To continue fomenting this cultural impulse, we will set in motion the following initiatives:

- Revitalization of the PUBLIC LIBRARY as an accessible space, with good capacity and safe and adequate premises to provide an essential service to our town.
- We will promote the LOCAL COUNCIL OF CULTURE AND HERITAGE as an advisory body.
- We will also foster cultural volunteering for collaboration in the conservation and spread of our cultural heritage.
- We would like to have more participation and involvement of the people in the LOCAL FESTIVITIES. We will propose the creation of a Festivities Committee.
- We will organise concerts of Valencian musicians and performers, favouring the hiring of local artists and associations.
- We will promote the establishment of music specialisation scholarships with renowned musicians for students with outstanding academic records.
- We will develop musical activities for people with disabilities for life quality improvement and social integration.
- We will also promote music among the elders in order to help their functional, psychological and psychomotor aptitudes.
- We will recover our Cultural Centre (LaKQ) as a centre for cultural activities for all citizens. But first and foremost, the building needs to be completely refurbished.

coalició
compromís
per L'Elia

- We will encourage the creation of a network of cultural associations for their permanent contact and collaboration on programming the cultural activities of L'Elia.
- We will revive the Permanent Cultural Programme: series of music concerts, cinema, performing and visual arts, etc., with proper standards of quality, identity and participation.
- We will support the artistic creations of our local artists.
- We will foster the creation of a MUNICIPAL THEATRE for shows and performances so as to make our town an important cultural reference point.
- We will study the creation of a new Vocational school for tourism and catering industries.

EDUCATION

“#EliaEduca”

L'Elia has 4 state schools and a state secondary school. Education is the future of our younger generations. Thus, it is essential to care for it. However, we believe in that today's educative system there is great scope for improvement. Our list of proposals aims to:

- Demand our Department of Education the renovation of the El Garbí School and the construction of a new secondary school.
- Demand the right to education of children aged 0, and we will therefore request the creation of a **MUNICIPAL KINDERGARTEN** to attend the education of children aged 0-3.
- The kindergarten will be located in the publicly-owned (but run-down) building next to the town council, once this has been properly refurbished.
- Demand the increase of the educational offer in the Intermediate and Advanced Vocational Training and Educational Cycles (CFGM & CFGS) in L'Elia secondary schools, to cater for a better non-compulsory education.

coalició
compromís
per L'Elia

- Foster the Life-long Adults School, with novel ideas for the formation of adults and a varied offer, state-funded, and with more flexible and opening hours.

LINGUISTIC POLICY

“#EliaenValencià”

Valencian is our mother tongue and we cannot leave it fall into oblivion. For this reason we will:

- Develop the creation of the BUREAU FOR THE USE AND LEARNING OF VALENCIAN, with an aim to reinforcing its social prestige in all spaces and sectors. We will make sure that all public documents are issued in Valencian.
- Promote a wide offer of linguistic and cultural integration courses for the newly arrived people.

SPORT

“#EliaEsMou”

Sport activity in L'Elia is diverse and we are very proud of being the hometown of a number of sports personalities that took our sport beyond our municipality. We believe that it is necessary to boost it. For this our proposals aim to:

- Develop a SPORTS MASTER PLAN, looking towards the future, for the provision of new sports facilities in the municipal district.
- Renewing the MUNICIPAL SERVICE, with an adequate management plan of the municipal premises to maximise the efficiency of our sports heritage.
- Create a LOCAL SPORTS PLAN. This will be a comprehensive plan that will gather all the public activities that we can organise and schedule, and that will be accessible to everyone. This plan will rely on basic regulations for the allotting of subsidies to sports entities (based on their needs).

coalició
compromís
per L'Eliaana

- Bolster the Sports Municipal Council as a participative and consultative referent for the clubs.
- Promote sport and traditional games in schools (local and district competitions).
- Support the sports associations and entities in our town.
- Give sport scholarships to people with the necessary skills **if they do not have economic resources or receive family support.**
- Demand our Department of Education the use of sports facilities in the educational centres outside school hours.
- Support our top sportspeople that represent our sport.
- Promote national sport events and organise summer Sport Campuses.
- Upgrade the installations of the outdoor swimming pool by making it also indoor for use all the year round for school and club sport.
- Boost sports activities among people with disabilities for life quality improvement and social integration.
- Promote sports activities for our elderly people and geriatric physical therapy to improve their functional, psychological and psychomotor aptitudes.

coalició
compromís
per L'Elia

SOCIAL WELFARE, YOUTH AND CHILDREN

SOCIAL WELFARE AND THE ELDERLY

“#LElianaSocial”

Social Welfare and Health of our inhabitants are of vital importance for the development of our town. Hence we believe that it is essential to provide these areas with all the needed resources to achieve that every citizen is taken care of.

- We will demand a real DISTRICT GENERAL HOSPITAL with all the services and we will request that the Health's Office enhance our health centre and its Service Desk.
- We will demand good maintenance services for our health centre.
- We will expand the Social Services staff by reconsidering its functioning, thus offering more services.
- We will address the issue of building a public DAY CENTRE to better assist the elderly, with catering services, and we will negotiate subsidies for elderly people who are not self-sufficient and who must stay in ELDERLY PEOPLE'S HOMES.
- We will definitely promote the DEPENDENCE ACT, condemning the lack of recognition of the dependents' needs and the cessation of public aid.
- We will start the creation of the OCCUPATIONAL CENTRE for people with disabilities in new facilities.
- We will promote social volunteering from school to retired people to nurture a fairer and more solidary spirit.
- We will foster the SENIOR CITIZENS COUNCIL for them to actively participate along with the town council in all the activities and events organised in L'Elia.
- We will establish advantageous fiscal measures for retired people.
- We will promote and organise all kinds of entertaining and cultural activities, in addition to formative courses in ICT for the elderly.
- Bank of appliances and bank of land.

coalició
compromís
per L'Elia

THE YOUTH

“#lEliaAmbElsJoves”

Due to the ferocious economic crisis that devastates our country, young people in our town are currently facing a reality that leaves them aside, with no granted access to university education or to the labour market. The only recourse offered to them is a job under the worst conditions for the development of a decent life and must exile to find a solution to their precarious situation. This is sadly known as ‘brain drain’. From Compromís, our commitment with the youth is the following:

We will:

- Promote the local youth council as an open forum for participation and volunteering.
- Transform the ‘Espai Jove’ (Young Space) into a meeting point where they can express their cultural, creative and leisure concerns.
- Foster the creation of a LUDIC ZONE for young people to enhance their opportunities for leisure without having to leave the town.
- Set up a WIFI NETWORK for them to create their web sites, blogs, exchange areas and virtual study groups.
- Establish a bureau of RENTAL HOUSING with affordable prices for the youth.
- Promote sexual education, enabling them to live their sexuality fully and without discrimination.
- Establish a system of NIGHT TRANSPORT for the weekends and festivities, connecting the town, the residential areas and the leisure centres.
- Demand the extension of service hours in the metro, with special concessions and discounts for the YOUNG people and the unemployed of any age.
- Improve the connection of our municipality with the Universities and work places with public transport.
- Organise trips and cultural visits, thus favouring the exchange and sharing of experiences among the young.
- Promote an avant-garde and multicultural music festival, with the participation of local groups.

coalició
compromís
per L'Elia

- Codetermine public spaces and co-organise activities.
- Study the creation of a TV station and improve the local radio with the possibility of broadcast in streaming.

OPEN GOVERNMENT: TRANSPARENCY AND PARTICIPATION

LOCAL GOVERNMENT AND CITIZEN PARTICIPATION

“LElianaTransparentIParticipativa”

For Compromís, the government in L'Elia must necessarily be OPEN for everyone, with a TOTAL AND REAL TRANSPARENCY for public spending. Besides, we will commit ourselves to a more direct PARTICIPATION that takes on board the will of the citizens and will make our management available to them at all times.

We will:

- Govern WITH TRANSPARENCY and honesty, giving all the information about the management of public funds so that our citizens can scrutinise our work.
- Reduce TOP-HEAVINESS (i.e. the excessive number of top managerial positions), and hire career officials for work in public administrations.
- Put an end to squandering and favouritism.
- Put forward a new way of organising the local administration to make it more effective and coordinated, with all areas interconnected.
- Make Agenda 21 our Town Strategic Plan, reinforcing our commitment to a project for the progress and environmentally sustainable future of our town.
- Stress the importance of Valencian in the town council and decisively increase its promotion.
- Create Citizens Participation Councils as an open forum for the expression of their necessities and concerns.
- Support the different sectoral councils by bringing their demands to the municipal plenary sessions.

coalició
compromís
per L'Eliaana

- Foment the PARTICIPATION of citizenship in the MUNICIPAL PLENARY SESSIONS with previous information and the possibility of setting up a “citizen seat” to take part in debates and discussions and provide solutions to the problems of our citizens as soon as possible.
- Promote that our citizens decide a percentage of the local investments.
- As said, the plenary sessions must be immediately transparent. For this reason, we will propose the LIVE BROADCASTING AND STREAMING of all the PLENARY SESSIONS on the website of the town council and in a YouTube channel.
- Establish public hearings on issues of general interest.
- Promote the use of the local website as an open forum for participation and consultation.
- Establish models of PARTICIPATORY BUDGETING.
- Create the position of a local Ombudsman.
- Study the creation of a public and open TV station and local radio in streaming.

COMMUNICATION

COMMUNICATION AND INFORMATION

“#EliaanaComunicativa”

It is necessary that information reaches every citizen in L'Eliaana and we therefore need to promote optimal mass media and at the cutting edge of technological advances. For this reason, and with the aim of showing transparency in our policies, we need independent mass media that guarantee plurality in L'Eliaana and the timely provision of information of the current events. We will:

- Promote the local TV and radio, together with the recovery of the plural and local newspaper L'Eliaana 2000, which is much necessary.
- Foment the use of online media as a way of communicating with citizenship.
- Broadcast plenary sessions in streaming.
- Establish public hearings for public positions.
